

CANOPY OF PRAYER

June #131-2022

Author

Sergey

a prayer leader and intercessor in Russia

Shalom to you all, dear prayer warriors in Europe!

God's peace is today the most important thing, so much needed for each one of us and for our nations. It is our generation that the Lord has predestined to live during the period of fulfilment of the signs indicating His return: "For nation will rise against nation, and kingdom against kingdom; and there will be earthquakes in places, and there will be famines and turmoil. This is the beginning of birth pains." – Mark 13:7-8.

A clear biblical interpretation of our current situation

This means that in the midst of the present and future tribulations, we are able not only to stand and preserve His peace ourselves, but also to establish His Kingdom and His victory in the lives of many. THE TIME OF SHAKINGS IS AHEAD FOR THE NATIONS OF EUROPE AND OF THE WORLD.

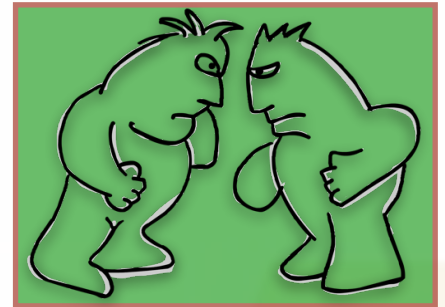

Since the beginning of 2020, the world has changed and will never be the same again. For the first time, we have witnessed events global in nature having consequences for all the nations of the world. The covid pandemic began in China, but it impacted all the peoples of the world and entered many homes uninvited.

We see a similar thing happening with the war in Ukraine. It is not just a regional conflict between two major European powers. Dozens of countries all over the world have already been emotionally, politically and economically drawn into this military confrontation. And the consequences of this war will have a global impact on the whole world.

What the pandemic and the war in Ukraine have in common is not only their global impact on the modern world, but also their clear correspondence with the Biblical end-time prophecies. These events are already being compared to the horsemen of the Apocalypse by preachers in church, on the Internet and in many media. It should be clear to us intercessors that this is not just evil people, politicians and rulers causing social and political upheavals.

First of all, there are spiritual powers behind these events, angelic and demonic. The Lord allows His judgment to fall on the nations of the world to prepare them for the return of Jesus Christ and bring as many people as possible to repentance and salvation. Satan, on the other hand, sees that he has little time left, and seeks through these upheavals to deceive, kill and destroy as many people as possible. It has been more than three months since the war in Ukraine began. Each day of the war brings about hundreds of deaths and thousands of other troubles and suffering. But even more terrible is the fire of mutual hatred, pain and aggression which has set aflame millions of

hearts. Hatred for the rulers and the people who support them, no matter which side of the confrontation. Only believers can pray in the authority of citizens of the Kingdom of Heaven, not associating themselves with their national and political affiliation, and in this way are able to stop the intensification and dissemination of this war in the spiritual realm.

Satan seeks to bring the intensity of this hatred to the point of mutual destruction when peoples use all means at their disposal, including nuclear weapons. Never before have politicians and various experts discussed so often and openly the possibility and even the necessity of resorting to such weapons. Apart from that, the threat of famine, frost and economic disaster looms over hundreds of millions of people, not only in Africa, South America or Asia, but also in Europe.

We pray:

1. For the termination of hostilities and the conclusion of a peace agreement between Russia and Ukraine before the onset of the autumn-winter period;
2. For the fighting not to spread to other countries (e.g. Belarus, Poland, Moldova, Romania) and for weapons of mass destruction not to be used;
3. For the protection of the European peoples from the consequences of the increasing energy, economic, food and social crisis. For these upheavals to lead people to repentance and reconciliation with God, and not to riots, confusion and hardening of hearts.

Update:-

The European Commission has approved a €35B Polish recovery plan which had been delayed for more than a year by a stand-off between Brussels and Warsaw over controversial judicial reforms in Poland. This represents a truce and should avert the risk of a "Polexit". President Duda has announced partial changes to the reforms including replacing the disciplinary regime of judges, but critics say the changes are cosmetic and do not reach EU standards. After final approval from the EU Council, payments will be made in tranches dependant on a series of judicial changes.

Additional Prayer Points:-

1. Pray that solutions would be found to protect the poor and most vulnerable in society, as inflation hits most countries in Europe, particularly those countries in the east of Europe like Moldova that is seeing inflation rates of 21%.
2. This week as we are reminded of the horrors of shootings, let us pray for our own continent where gun crime is also growing. Sweden and Finland have almost as many guns per head of population as in the USA and are also seeing an increase in gun violence, almost 14 times as many as five years ago.
